Awakening the Life Code Patterns

Remembering
Who You Are

All consciousness is based on
Sacred Geometry

Life was created from a spark of light
with a geometrical pattern,
a divine order and
a higher state of consciousness.

Understanding sacred geometry
opens one's path to inner and outer
existence.

The past, present and future.
Our intuitive connection to all.

Humans have been creating sanctuaries since
ancient times,
to protect their homes and land.

To create your own sanctuary at home you
can use stones, crystals and other holy
objects you keep sacred.

Follow your heart intuition
&
All will be well.

All life existence

Love is Energy

&

Energy is
All that is

Start with an Intention from the

1. Choose your Grid.
2. Choose your Stones.
3. Position your North (highest point) according to the Magnetic North of your location (you can use your cell phone compass app).
4. Start from the center choosing the Focus Stone.
5. Move out from the center of the grid by placing the other stones and following the lines.
6. When you are happy with the layout, you are ready to activate your grid
7. To activate it make 3 circles clockwise with the palm of your hand facing the stones.
8. Then make 3 circles counter-clockwise, and again 3 circles clockwise.
9. Then slowly raise your hand toward the sky.

Your Crystal Grid is Activated!

The layout you choose creates a circuit of energy.

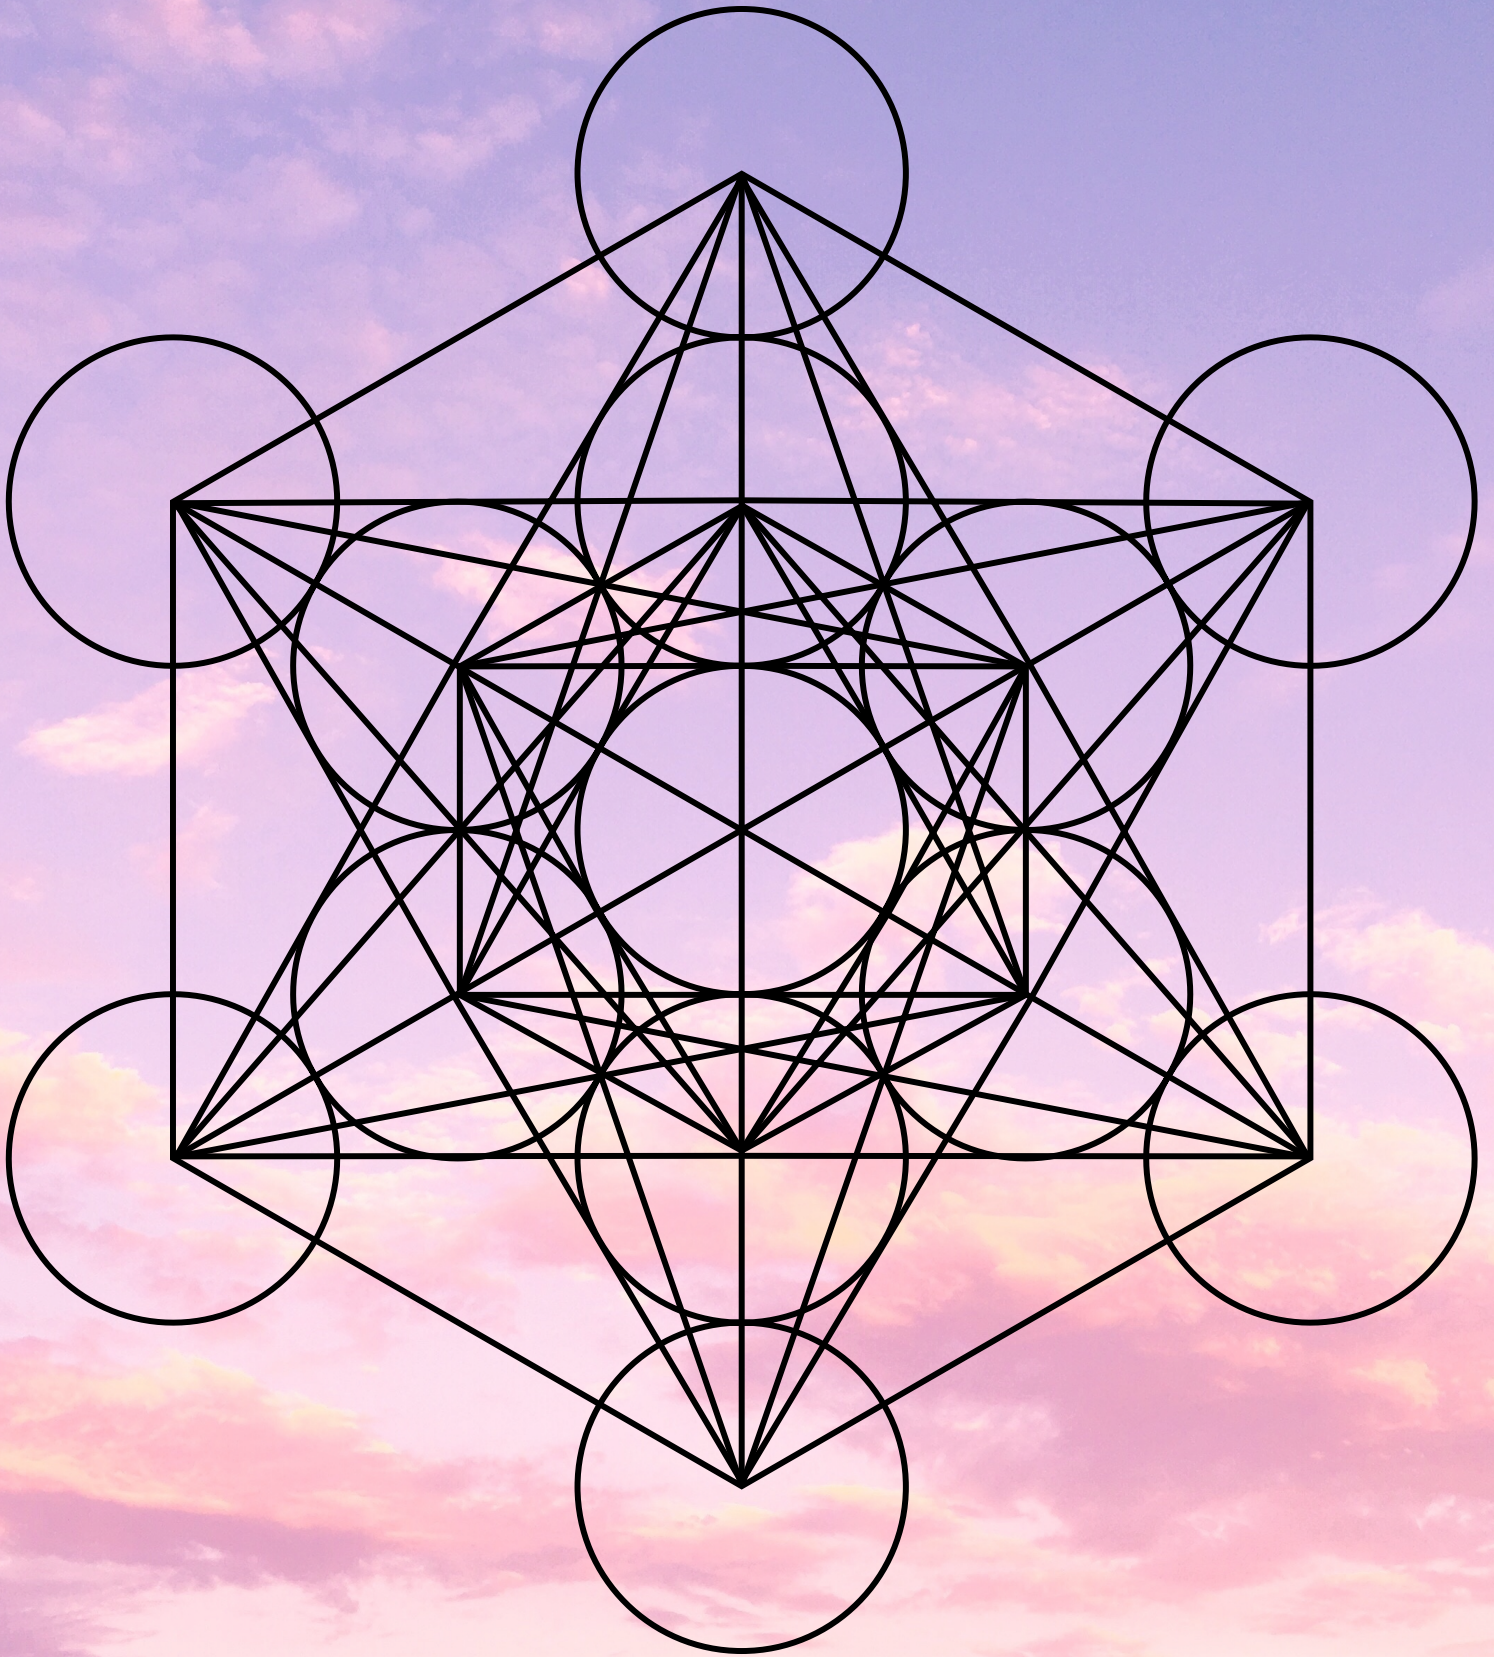

Notice if the lines you created between the stones are uninterrupted, and adjust the stone positions as needed.

You can cleanse your layout by smudging sage, palo santo or incense.

To deconstruct a layout you can use drum sound or clap your hands while holding feelings of gratitude.

Choose your Crystal grid Layout according to your intention.

Remember always use your heart and intuitive guidance.

Who You Are

A large, detailed moon is centered in the upper half of the image, set against a twilight sky with soft purple and orange hues. Below the moon, the text "MOONLIGHT SISTERS" is written in a clean, white, sans-serif font. The bottom half of the image shows a beach at sunset, with waves lapping at the shore and a small figure standing in the shallow water.
